INDEX

Absorption spectra of acids from fish-liver oils (Edisbury, Morton and Lovern) 899
Absorption spectra of metabolic acids of *Penicillium Charlesii* (Herbert and Hirst) 1881
Absorption spectra, ultraviolet, of oxytocic hormone of posterior lobe of pituitary gland (Gulland and Lucas) 2208
Absorption, ultraviolet, of crystalline preparations of vitamin B_1 (Holiday) 718
Acetic acid method, glacial, for estimating amino- or other basic groups in amino-acids *etc.* (Harris) 2820
Acetoacetic acid breakdown in the kidney (Quastel and Wheatley) 2772
Acetoacetic acid, formation and breakdown of, in animal tissues (Jowett and Quastel) 2181
Acetoacetic acid, oxidation of (Jones and Smedley-MacLean) 1690
ACHARYA, C. N. Studies on the anaerobic decomposition of plant materials. I. The anaerobic decomposition of rice straw (*Oryza sativa*) 528
ACHARYA, C. N. Studies on the anaerobic decomposition of plant materials. II. Some factors influencing the anaerobic decomposition of rice straw (*Oryza sativa*) 953
ACHARYA, C. N. Studies on the anaerobic decomposition of plant materials. III. Comparison of the course of decomposition of rice straw under anaerobic, aerobic and partially aerobic conditions 1116
ACHARYA, C. N. Studies on the anaerobic decomposition of plant materials. IV. The decomposition of plant substances of varying composition 1459
Acids, lower aliphatic, inhibitory action of, on cytochrome reduction in yeast (Beck) 2424
Acids, volatile, in bacterial cultures, method of estimating (Allen and Harrison) 2471
Actinia equina, carotenoid pigments of (Heilbron, Jackson and Jones) 1384
Actinoloba dianthus, carotenoid pigments of (Heilbron, Jackson and Jones) 1384
Acyl derivatives and "regenerated glycogens" (Bell and Kosterlitz) 2027
ADAIR, G. S. *see* ROCHE, J.
ADAIR, M. E. *see* ROCHE, J.
ADAM, N. K., ASKEW, F. A. and DANIELLI, J. F. Further experiments on surface films of sterols and their derivatives 1786
ADOLPH, W. H. *see* CHOU, T.-P.
Adrenaline stabilisation, perfusion of adrenal gland with reference to mechanism of (Heard and Welch) 998
Adsorption of oxytocic hormone of posterior lobe of pituitary gland (Freeman, Gulland and Randall) 2208
AHMAD, B. Observations on the chemical method for the estimation of vitamin C 275
Aitken, Harry Arthur Ashwell, obituary notice of 1
Alanine, oxidation of, by *Cl. sporogenes* (Stickland) 889
Albumin in serum and urine, biuret method of estimating (Fine) 799
Alcohol titration of amino-N, titration constants of some amides and dipeptides in relation to (Melville and Richardson) 187
Alcoholic fermentation of sugars by brewer's yeast, kinetics of (Hopkins and Roberts) 919, 931, 2486
Aldehydes, aromatic, correlation of spermicidal efficiencies of, with their chemical reactivities (Gulland and Mead) 397
Aldehydes, aromatic, electrometric alkaline titrations of gelatin in presence of (Gulland and Mead) 397
Aldehydes, aromatic, piperidine and diethylamine as catalysts in condensation of, with hydantoins (Boyd and Robson) 542
Aldehydes, lower aliphatic, inhibitory action of, on cytochrome reduction in yeast (Beck) 2424
Algae (Heilbron, Parry and Phipers) 1376, 1382; (Heilbron and Phipers) 1369
Algae, marine, phosphorus content of (Haas and Russell-Wells) 1915
Alkali cations, influence of, on fermentation capacity of yeast (Lasnitzki and Szörenyi) 580
ALLAN, H. and DODDS, E. C. Hormones in the urine following oophorectomy during pregnancy 285
ALLCROFT, R. and GREEN, H. H. Rapid titrimetric estimation of arsenic in biological materials 824
ALLEN, L. A. and HARRISON, J. A note on the method of estimating volatile acids in bacterial cultures 2471
Amides, titration constants of, in relation to alcohol and formaldehyde titration of amino-N (Melville and Richardson) 187
Amino-acid content of wheat flour dough (Samuel) 2331
Amino-acids, basic, of typical forage grass proteins (Miller) 2344
Amino-acids, "glacial acetic acid" method for estimating amino- or other basic groups in (Harris) 2820
Amino-acids, ketogenesis from (Edson) 2498
Amino-acids, metabolism of (Krebs) 1620, 1951; (Weil-Malherbe and Krebs) 2077
Amino-acids, potentiometric determination of (Balson, Earwicker and Lawson) 2700
Amino-acids, synthesis of (Boyd and Robson) 542, 546, 2256
Amino-groups in amino-acids, "glacial acetic acid" method for estimating (Harris) 2820
Amino-N, titration constants of some amides and dipeptides in relation to alcohol and formaldehyde titrations of (Melville and Richardson) 187
Ammonia, formation of hyponitrous acid as an intermediate compound in biological or photochemical oxidation of (Corbet) 1086
Ammonia of normal human blood (Conway) 2755

AGRICULTURE LIBRARY FEB 24 1936

Ammonia, synthesis of glutamine from glutamic acid and (Krebs) 1951
Ammonium chloride, influence of, on ketone-body formation in liver (Edson) 2082
Amphibian gastrula, distribution of glycogen in regions of (Heatley) 2568
Anaerobes, strict (genus *Clostridium*), metabolism of (Stickland) 288, 889
Anaerobic decomposition of plant materials (Acharya) 528, 1116, 1459
Anaesthesia, generalised ether, influence of, on urinary excretion of *l*-ascorbic acid (Zilva) 2366
ANDERSON, A. B. *see* TOMPSETT, S. L.
Androsterone alone or together with oestrone, prolonged treatment of male and female rats with (Korenchevsky, Dennison and Simpson) 2534
Androsterone and androsterone-diol, effects of water-soluble preparations of, on castrated rats (Korenchevsky, Dennison and Simpson) 2131
Androsterone, assay of (Korenchevsky and Dennison) 1720
Androsterone-diol, effects of water-soluble preparations of androsterone and, on castrated rats (Korenchevsky, Dennison and Simpson) 2131
Androsterone-diol, fat-soluble, assay of (Korenchevsky and Dennison) 2122
Androsterone, effect of, on accessory reproductive organs of castrated rats, mice and guinea-pigs (Callow and Deanesly) 1424
Androsterone, growth and maintenance of fowl's comb by administration of (Callow and Parkes) 1414
Androsterone, response of capon's comb to (Greenwood, Blyth and Callow) 1400
Anemones, sea, lipochromes of (Heilbron, Jackson and Jones) 1384
Anemonia sulcata, carotenoid pigments of (Heilbron, Jackson and Jones) 1384
Anhydride, fructose, from leaves of the barley plant (Archbold and Barter) 2689
Animal tissues, enzymic hydrolysis of glutamine in (Krebs) 1951
Animal tissues, formation and breakdown of acetoacetic acid in (Jowett and Quastel) 2181
Animal tissues, modification of Young's method for determination of inositol in (Gregory) 2798
Antenatal secretion of the human mammary gland (Widdows, Lowenfeld, Bond, Shiskin and Taylor) 1145
Anthracene, production of dihydroxydihydroanthracene from (Boyland and Levi) 2679
Antiscorbutic activity in relation to retention of antiscorbutic substances by the organism (Zilva) 1612
Apple fruit, nitrogen metabolism of (Hulme) 263
Arbutus fruits (*Arbutus unedo*), carotenoids of (Schön) 1779
ARCHBOLD, H. K. and BARTER, A. M. A fructose anhydride from the leaves of the barley plant 2689
Arginase in invertebrates, new method for determination of (Baldwin) 252
Arginase systems of embryonic tissue, effect of radium on (Holmes) 2285
Arginine, carbamido-acid and hydantoin of (Boon and Robson) 2573
ARMSTRONG, A. R. Purification of the active phosphatase found in dog faeces 2020
Arsenic, rapid titrimetric estimation of, in biological material (Allcroft and Green) 824
Ascorbic acid, behaviour of, in the animal body (Zilva) 1612, 2366
Ascorbic acid, catalytic oxidation of (Kellie and Zilva) 1028
Ascorbic acid content of intestine of guinea-pig (Zilva) 100
Ascorbic acid, effect of, on experimental goitre (Spence and Scowen) 562
Ascorbic acid, estimation of, by titration (McHenry and Graham) 2013
Ascorbic acid in the organs of the rat, effect of incomplete diets on concentration of (Hopkins, Slater and Millikan) 2803
Ascorbic acid in tissues of normal and tumour-bearing albino rats (Woodward) 2405
Ascorbic acid in urine, determination of, with phospho-18-tungstic acid (Medes) 2251
Ascorbic acid, influence of animal tissues on oxidation of (Mawson) 569
Ascorbic acid, interfering action of glutathione in silver nitrate test for (Svirbely) 1547
Ascorbic acid, relationship of, to metabolic acids of *Penicillium Charlesii* (Herbert and Hirst) 1881
Ascorbic acid, reversible inhibition of β-malt-amylase by (Hanes) 2588
ASHFORD, C. A. and DIXON, K. C. The effect of potassium on the glucolysis of brain tissue with reference to the Pasteur effect 157
ASKEW, F. A. Surface films of vitamin E concentrates 472
ASKEW, F. A. *see also* ADAM, N. K.
Asparagine, determination of glutamine in presence of (Vickery, Pucher, Clark, Chibnall and Westall) 2710
Aspergillus fischeri, factors influencing amount and nature of fat produced by (Prill, Wenck and Peterson) 21
Aspergillus terreus Thom, metabolic products of (Raistrick and Smith) 606
ASTBURY, W. T., DICKINSON, S. and BAILEY, K. The X-ray interpretation of denaturation and the structure of the seed globulins 2351
Avitaminosis E, chronic, appearance of paresis in adult rats suffering from (Ringsted) 788
AYLWARD, F. X., CHANNON, H. J. and WILKINSON, H. The liver and fat metabolism 169

Bacteria, enzyme formation and polysaccharide synthesis by (Cooper and Preston) 2267
Bacteria, growth of blow-fly larvae on blood and serum, in association with (Hobson) 1286
Bacterial cultures, method of estimating volatile acids in (Allen and Harrison) 2471
Bacterial suspensions, reduction potentials of (Yudkin) 1130
Bact. coli, indole formation by (Woods) 640, 649
Bact. coli, so-called "resting", formation of hydrogen from glucose and formic acid by (Tasman) 2446; (Tasman and Pot) 1749

BAILEY, K. Cress seed mucilage 2477

Menon, S. R. K. The variation in the methoxyl and cellulose values of the fibre of the fruit of *Cocos nucifera* during its growth from infancy of the nut to its ultimate drying on the tree 282
Metabolic acids of *Penicillium Charlesii*, absorption spectra of (Herbert and Hirst) 1881
Metabolic product of *Penicillium brevi-compactum* Dierckx and *P. cyclopium* Westling, *i*-erythritol (Oxford and Raistrick) 1599
Metabolic product of *P. griseo-fulvum* Dierckx, *P. flexuosum* Dale and *P. Brefeldianum* Dodge, fulvic acid (Oxford, Raistrick and Simonart) 1102
Metabolic products of *Aspergillus terreus* Thom (Raistrick and Smith) 605
Metabolic products of *Penicillium Charlesii* G. Smith (Clutterbuck, Raistrick and Reuter) 300, 871, 1300
Metabolism, carbohydrate, of normal and tumour tissues, differential effect of radium radiation on (Crabtree) 2334
Metabolism, copper, in man (Chou and Adolph) 476
Metabolism, fat (Jowett and Quastel) 2143, 2159, 2181; (Quastel and Wheatley) 2773
Metabolism, fat, in fishes (Lovern) 847, 1894
Metabolism, fat, liver and (Aylward, Channon and Wilkinson) 169
Metabolism, fat, of rabbit foetus, rôle of placenta in (Boyd) 985
Metabolism, fatty acid, new spectroscopic phenomenon in (Dann, Moore, Booth, Golding and Kon) 138
Metabolism, nitrogen, in invertebrates (Baldwin) 1538

Metabolism, nitrogen, of apple fruit (Hulme) 263
Metabolism, nitrogen, of *Bodo caudatus* (Lawrie) 588
Metabolism, nitrogen, of *Bodo caudatus*, effect of γ-ray irradiation upon (Lawrie and Robertson) 1017
Metabolism, nitrogen, of certain invertebrates (Truszkowski and Chajkinówna) 2361
Metabolism of amino-acids (Krebs) 1620, 1951; (Weil-Malherbe and Krebs) 2077
Metabolism of galactose (Grant) 1661, 1905
Metabolism of lactic and pyruvic acids in normal and tumour tissues (Elliott, Benoy and Baker) 1937
Metabolism of normal and tumour tissue (Dickens and Greville) 1468
Metabolism of polycyclic compounds (Boyland and Levi) 2679
Metabolism of protozoa (Lawrie) 588, 2297
Metabolism of strict anaerobes (genus *Clostridium*) (Stickland) 288, 889
Metabolism of tissues growing in culture (Holmes) 2285
Metabolism of transplantable tumours, effect of X-rays on (Bancroft, Beck and Russell) 2416
Metabolism of tumour and normal tissues, effects of oxidation-reduction potential indicator dyes on (Elliott and Baker) 2396
Metabolism, phosphate and creatine, in fever (Payne) 1310
Metabolism, tissue (Boyland and Boyland) 1097, 1910
Metabolism, uricotelic, and habitat, correlation between in Mollusca (Needham) 238
Methyl sulphide, liberation of, by seaweed (Haas) 1297
l-γ-Methyltetronic acid (Clutterbuck, Raistrick and Reuter) 1300
Mice, castrated, effect of androsterone and of male hormone concentrates on accessory reproductive organs of (Callow and Deanesly) 1424
Micro-biological oxidation, formation of hyponitrous acid in (Corbet) 1086
Micro-burette, new (Heatley) 626
Micro-organisms, biochemistry of (Clutterbuck, Raistrick and Reuter) 300, 871, 1300; (Oxford and Raistrick) 1599; (Oxford, Raistrick and Simonart) 1102; (Raistrick and Smith) 606
Micro-organisms, lactoflavin in (Pett) 937
Micro-organisms, polysaccharides synthesised by (Haworth, Raistrick and Stacey) 612, 2568
Micro-organisms, relation of, to carotenoids and vitamin A (Ingraham and Steenbock) 2553
Milk, effect of feeding cacao shell to cows on vitamin D content of (Kon and Henry) 2051
Milk, effect of halogen salts on clotting of, by trypsin (Clifford) 1059
Milk fever, variations in serum-magnesium and in partition of serum-calcium in (Godden and Duckworth) 445
Milk of Shorthorn and Guernsey cows, relation of sodium to chlorine in (Jones and Davies) 978

Walker carcino-sarcoma, growing, influence of, on concentration of blood and tissue enzymes of albino rat (Sure, Kik, Buchanan, Thatcher and De Groat) 1508
Walnut starch, preparation and properties of (Campbell) 1068
Warburg-Christian system, reduction of glutathione by (Meldrum and Tarr) 108

WATCHORN, E. and MCCANCE, R. A. Inorganic constituents of the cerebrospinal fluid. VI. Sulphur 2291
Water-soluble preparations of androsterone and androsterone-diol, effects of, on castrated rats (Korenchevsky, Dennison and Simpson) 2131
WATSON, R. H. Some observations on the estimation of muscle haemoglobin 2114
WEIL-MALHERBE, H. and KREBS, H. A. Metabolism of amino-acids. V. The conversion of proline into glutamic acid in kidney 2077
WELCH, A. DE M. *see* HEARD, R. D. H.
WELTNER, M. *see* ROSENTHAL, E.
WENCK, P. R. *see* PRILL, E. A.
WESTALL, R. G. *see* VICKERY, H. B.
Wheat flour dough, amino-acid content of (Samuel) 2331
Wheat germ oil, constituents of unsaponifiable fraction of, with particular reference to vitamin E (Drummond, Singer and MacWalter) 2510
Wheat germ oil, unsaponifiable fraction of, with special reference to vitamin E (Drummond, Singer and MacWalter) 456
Wheat proteins, changes of, under action of flour and yeast enzymes (Blagoveschenski and Yurgenson) 805
Wheat seeds, dormant and germinating, distribution of enzymes in (Pett) 1898
WHEATLEY, A. H. M. *see* QUASTEL, J. H.
WHELAN, M. The nitrate content of animal tissues, and the fate of ingested nitrate 782
WIDDOWS, S. T., LOWENFELD, M. F., BOND, M., SHISKIN, C. and TAYLOR, E. I. A study of the antenatal secretion of the human mammary gland and a comparison between this and the secretion obtained directly after birth 1145
WIDDOWSON, E. M. and MCCANCE, R. A. The available carbohydrate of fruits. Determination of glucose, fructose, sucrose and starch 151
WIDDOWSON, E. M. *see also* MCCANCE, R. A.
WIERTELAK, J. *see* CAMPBELL, W. G.

WILKINSON, H. *see* AYLWARD, F. X., BEESTON, A. W. *and* CHANNON, H. J.
WILKINSON, J. F. *see* JACKSON, H.
Wood, chemistry of white rots of (Campbell and Wiertelak) 1318
WOODS, D. D. Indole formation by *Bacterium coli*. I. The breakdown of tryptophan by washed suspensions of *Bacterium coli* 640
WOODS, D. D. Indole formation by *Bacterium coli*. II. The action of washed suspensions of *Bacterium coli* on indole derivatives 649
WOODWARD, G. E. Glutathione and ascorbic acid in tissues of normal and tumour-bearing albino rats 2405
Wool, origin of sulphur in (Rossouw and Wilken-Jorden) 219
WRIGHT, M. D. *see* BAKER, A. Z.
WYNNE, A. M. *see* FARBER, L.

Xanthine oxidase and Schardinger enzyme, identity of (Booth) 1732
Xanthine oxidase in tumour and muscle extracts (Boyland and Boyland) 1097
X-ray interpretation of denaturation of seed globulins (Astbury, Dickinson and Bailey) 2351
X-rays, effect of, on metabolism and growth of transplantable tumours (Bancroft, Beck and Russell) 2416

Yeast, brewer's kinetics of alcoholic fermentation of sugars by (Hopkins and Roberts) 919, 931, 2486
Yeast enzymes, changes of wheat proteins under action of (Blagoveschenski and Yurgenson) 805
Yeast, influence of alkali cations on fermentation capacity of (Lasnitzki and Szörényi) 580
Yeast, inhibitory action of lower aliphatic acids and aldehydes on cytochrome reduction in (Beck) 2424
Yeast, synthesis of reserve carbohydrate by (McAnally and Smedley-MacLean) 1872, 2236
YUDKIN, J. The reduction potentials of bacterial suspensions 1130
YURGENSON, M. P. *see* BLAGOVESCHENSKI, A. V.

ZILVA, S. S. The ascorbic acid content of the intestine of the guinea-pig 100
ZILVA, S. S. The behaviour of *l*-ascorbic acid and chemically related compounds in the animal body. Antiscorbutic activity in relation to retention by the organism 1612
ZILVA, S. S. The behaviour of *l*-ascorbic acid and chemically related compounds in the animal body. The influence of generalised ether anaesthesia on their urinary excretion 2366
ZILVA, S. S. *see also* KELLIE, A. E.
Zinc content of bovine pancreas (Fisher and Scott) 1055
